Contract Extension
CNA and Kaiser Agree to Continue Bargaining Through September

Bargaining Update - August 16, 2017

Today, CNA and Kaiser agreed to extend the Collective Bargaining Agreement for 30 days and continue bargaining through the end of September in an effort to reach a tentative agreement. While there are still a substantial number of issue that separate Kaiser and CNA from reaching a successful agreement, the extension provides an opportunity for thoughtful discussion and possible resolution. The parties have agreed to continue the schedule of bargaining through September in the same format as July and August.
